

2026 World Cup Prediction Quarter-Final Analysis

June-July 2026

Brian moves up to the first place! TWELVE of you correctly called ALL four semi-finalists. Pretty cool!

Average Points: 239

Standard Deviation: 18.5

Median: 240.5

Range: 82

- The theoretical maximum at this stage is 580 points. Our current leader Brian has about 47% of that number. Kudos!
- Three points were few and far between! Akshath, Dylan, Pratik, Pankaj and Ritesh correctly called the Spain-Belgium result. Only Nitish got France-Morocco and Shreyas was the only one to get Argentina-Switzerland.
